The Use of this Table is this: If thou wouldst know what the Interest of 100 and 5 l. is for 9 Months at 6 per Cent. then in the first Column find out 100 at the foot of the Column, and right against it under the Title 9 Months, (which is the fifth Column) here you shall find 4 l. 10 s. And against the Number 5 l. you shall find 4 s. 6 d. So that the Interest of 100 and 5 l. for 9 Months, cometh to 4 l. 14 s. 6 d. The same on all the rest.

This is the season for good Hus-
 bands to lop and prune superflu-
 ous branches from Fruit-trees, un-
 cover their Roots, set all kind of
 Quick-sets and Fruit-trees in the
 New of the Moon. Be sure the
 Wind be not North nor East; and
 set the same sides to the South and
 West, which grew at the first. Set
 Beans, Pease and Parsnips. The
 weather mild and Moon decrea-
 sing, dig Gardens, drench weak &
 sick Cattle, Kine with Verjuice,
 Horses with Water and Ground
 Malt sodden with a little Bran.
 In this Month let not Blood,
 nor use Physick, unless necessity
 constrain thee. Beware of taking
 cold, for Rhuems and Flegm do
 much increase this Month. It's
 hurtful to fast long; to drink
 White-wine fasting is good. Use
 Meats that are moderately hot,
 for the best Physick is warm
 Diet, warm Cloaths, and a merry
 honest Wife.

Now regarding the Wind &

Weather, graft, cut Quicksets,

cover the Roots of Fruit-trees

(opened in *December* and *Janua-*

ry) with fat Earth; sow Oats,

Barley, Parsnips, Onions, Car-

rots, Melons, Cucumbers, and

all kind of Pot-herbs; slip Arti-

chokes and Sage, and sow all

manner of Garden-seeds.

Now advise with the honest

and able Astrological Physician.

It is good to purge & let blood,

for in this Month the Humours

and Blood increase, and gross

feeding breeds gross Blood and

Humours; therefore use Meats

of good digestion, and such as

afford good Juice & Nutriment

to the Body. Forbear all things

salt, purge the Blood by Poti-

ons and Blood-letting. Sweet-

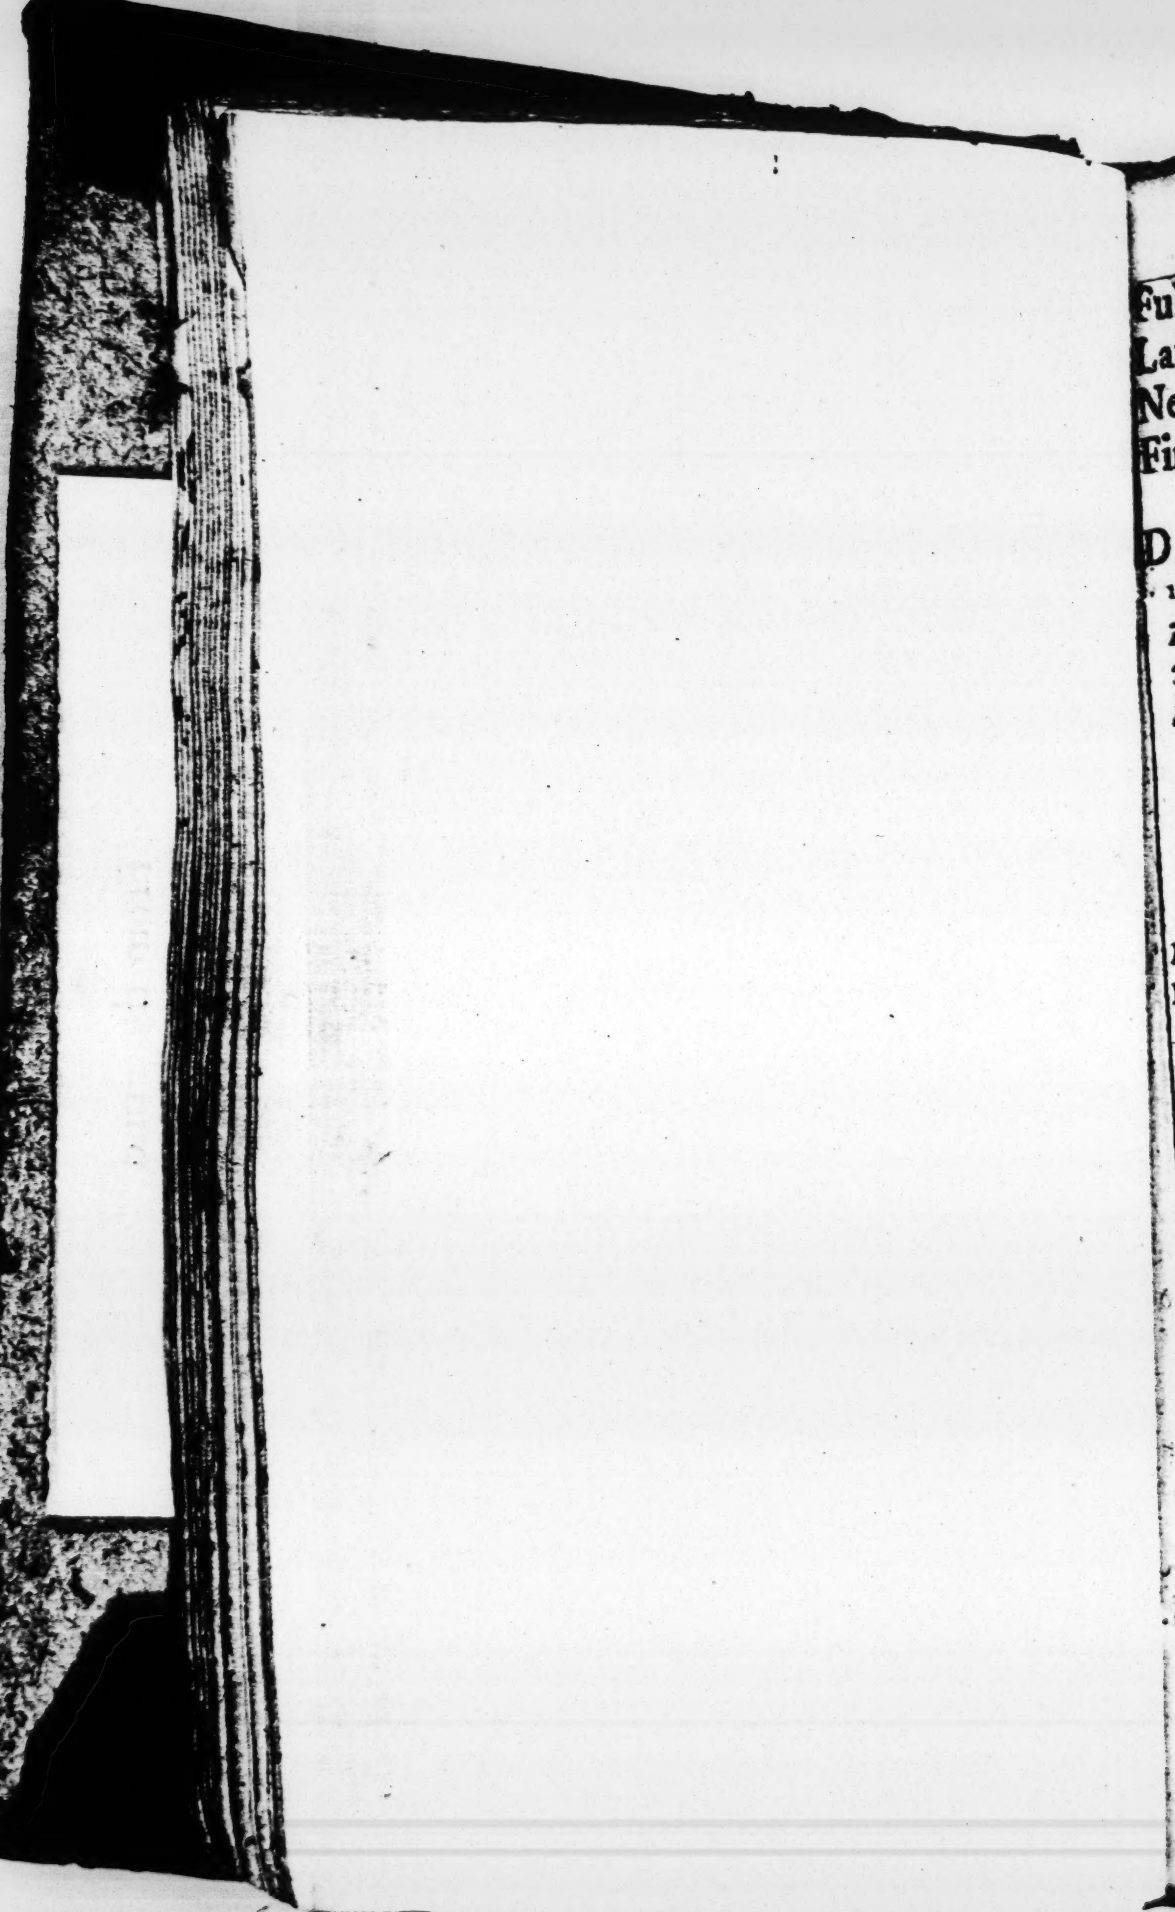

Meats and Drinks are commen-

dable. Be sure to eat in the

Morning before you drink.

This Month commands the provident Housewife, and the prudent Artists, to set their Stills on work. In the beginning of the Month sow and set those tender Summer-herbs that would not endure the former cold. Weed your Hop-Gardens, cut off superfluous Branches, Moss Trees and Gardens, and weed Corn; Rise early and walk the Fields and Gardens.

Now every Garden & Hedge affords thee Food and Physick. Rise early, walk the Fields by running streams, the North and West sides. Sage and sweet Butter an excellent Breakfast. Clarified Whey with Sage, Scurvy-Grass Ale, and Wormwood Beer. are wholsom Drinks. Green Whey excellent against Cholera. Eat and drink betimes in the Morning. Abstain from Meats that are hot in Nature, and salt in Quality.

OROS

Sow Wheat and Rye, remove young Plants and Trees about the New Moon, observing this as a seasonable Secret, that in setting, you carefully place that side to the South and VVest, which were so before you took up the Plant; otherwise the cold kills it. Gather your remaining VVinter-Fruit, set all kinds of Nuts and Acorns, and cut Rose-trees but once in two Years, if you intend to have store of Roses.

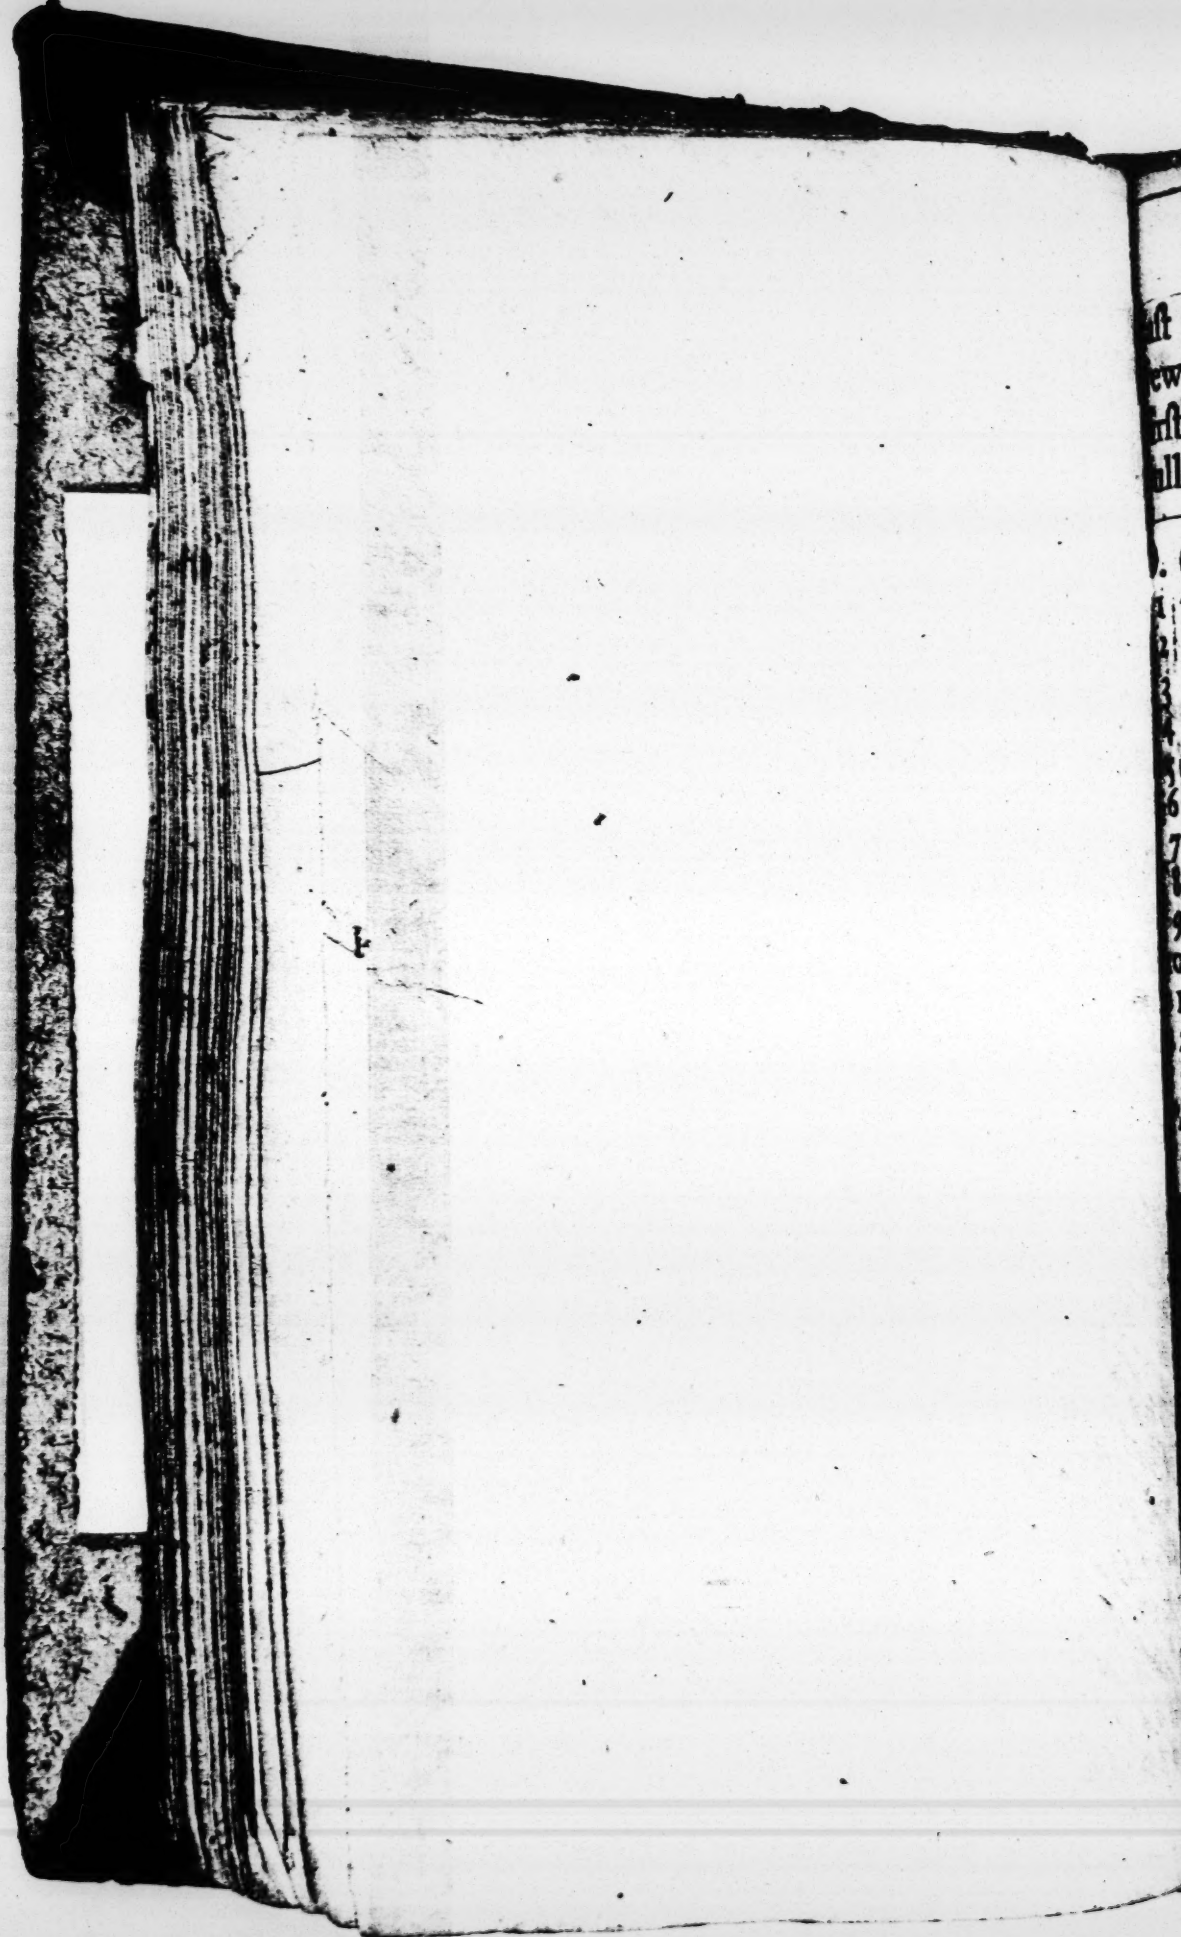

The Garments you last Month hung on your Backs in jest, now button them close in good earnest: Cloath you now for prevention, for the cold comes insensibly, and Fogs oft-times beget a whole VVinters cold. Consult with your Taylors, as well as Physitians.

Contentment swells a Mite into a Talent, and makes a Man richer than the *Indies*.

A Description of the Four Quarters of the Year

THe *Spring Quarter* begins this Year *March* 10th, near 6 in the morning, at which the Sun enters the Equinoctial Sign *Aries*, causing an equality of Day and Night all the habitable World over. *Summer* takes its beginning *June* 11. near 11 in the morning, the Sun then approaches nearest our *Zenith*, and enters the first scruple of the Tropical Sign *Cancer*, making longest days with us, and shortest nights. *Autumn*, or *Harvest Quarter* commences *September* 12, near half an hour past 11 at night; the Sun then touches the first Scruple of the other Equinoctial Sign *Libra*, and again equalizes both day and night. *Winter* begins *December* 21. very near noon; then the Sun touches the first point of the Tropical Sign *Capricorn*, making with us the shortest day and longest night in the year, but to those who are our *Antipodes* just the contrary.

Of Eclipses that happen this year 1699

THere will be four *Eclipses* of the *Luminaries* this year, two of the Sun, and as many of the Moon: The first will be an Eclipse of the Moon, *March* 5. at 8 at night, visible to us, and 10 parts of 12 of the Moon's Body darkned. The second will be of the Sun, *March* 21. at 8 in the morning, scarce visible to us, by reason of the Moons parallel. The third will be an Eclipse of the Moon, *August* 1. near noon, and therefore not visible to us. The last will be of the Sun, *September* 13. about 11 in the morning, visible to us; a great Eclipse, where 12 parts of 12 of the Sun's Body will be darkned.
